Omschrijving (EN)	Gates?? classical synchronous PowerGrip??? Timing belts offer a maintenance-free, economical, and OE quality solution for your conventional timing drives such as chains and gears. Its application range extends from minimum drives (computer printers) to heavy-duty machinery (oil pumps, etc). The trapezoidal tooth profile makes this belt well suited for use in positioning applications. Fiberglass tensile cord provides high strength, excellent flex life and high resistance to elongation. Neoprene body provides protection against grime, grease, oil, moisture, and other contaminants. Nylon tooth facing provides a durable wear surface for long service life.
