| <b>Omschrijving (EN)</b>         | Engineered with the latest in advanced technology and materials science expertise, Gates PowerGrip GT4 delivers the highest power-carrying capacity of any belt in its class. In addition, Gates designed a belt with increased chemical resistance and larger temperature range capability. Gates PowerGrip GT4 belt delivers improved performance over a wide range of industrial applications. The 8MGT and 14MGT pitches are the optimum choice for high performance drives in the machine tool, paper and textile industries where durability and low maintenance are required. From resource processing to heavy manufacturing, automated production to custom assembly Gates PowerGrip GT4 solutions improve uptime, efficiency, productivity, reliability and safety for industries around the world. Technically advanced compound with fibre glass tensile cord, elastomeric teeth and backing and nylon facing. Newly engineered EPDM rubber protects the cords from environmental pollution and frictional wear. Low friction nylon facing protects the tooth surface against wear. |
| <b>Minimale temperatuur (°C)</b> | -40                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
