| <b>Omschrijving (EN)</b>         | PowerGrip™ GT™2 Twin Power™ Belts feature dual-sided teeth to provide equal load carrying capacity on either belt surface, enabling synchronisation from both driving surfaces. These synchronous belts ensure high loading capacity on contra-rotating drives and ensure smooth running and high flexibility. Gates® Twin Power™ PowerGrip™ GT™2 belts are designed to perform at high speeds and characterised by low running noise, with a larger tooth profile for increased performance capacity. Virtually maintenance-free with no lubrication requirements and minimal re-tensioning needs. Belt capacity is equal to standard single-sided PowerGrip® timing belts. Substantially quieter operation enables wide application usage. |
| <b>Minimale temperatuur (°C)</b> | -30                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
